

EPPS6356 Data Visualization

Assignment 1

Ground rules:

All assigned works are to be published on own GitHub website/blog.

1. Try Anscombe's examples (anscombe01.R on Teams)
2. Google "generative art". Cite some examples.
3. Run Fall.R (on Teams)
 - a. Give your own colors (e.g. Winter).
 - b. Export the file and post on your GitHub website.
4. Write a critique on a chart in published work (book/article/news website)
(Hint: Learn from Nathan Yau's example discussed in class). Post on your website.
